

THE CATALOGUE

PORCELAIN TILES · 100 × 180 cm

TRENDING PRODUCTS

The 100x 180 cm ceramic tile is a large-sized option ideal for various interior design applications, especially in spacious areas. The generous dimensions make it perfect for use in large living rooms, kitchens, commercial spaces, or even hotels. The expansive size helps reduce the number of joints, creating a more seamless and modern look that enhances the overall aesthetic of the space.

These large tiles are particularly suited for minimalist designs, as they provide a clean and sophisticated appearance while making the space feel larger and more open. Additionally, their size makes them highly practical for areas that require durable, easy-to-maintain surfaces, such as kitchen backsplashes, bathroom walls, or flooring in high-traffic zones. The reduced number of tiles needed for installation also makes the process quicker and more efficient, further contributing to their appeal in large-scale applications.
