# THE CATALOGUE

PORCELAIN TILES · 40 × 40 cm

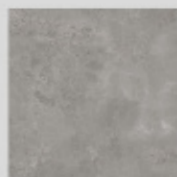

## TRENDING PRODUCTS

The 40x40 traffic ceramic tile with a thickness of 14mm is a highly durable and practical option for high-traffic areas and public spaces. Due to its increased thickness and strong compressive resistance, it is capable of withstanding heavy loads from vehicles and intense pressure. Additionally, the surface of these tiles often features anti-slip properties, enhancing safety in wet or rainy conditions. These tiles are commonly used in sidewalks, parking lots, streets, and walkways, providing long-lasting durability and increasing the lifespan of flooring in areas with high foot traffic or vehicular movement.
